ABOUT ME

Hi! I'm **Chris**, a **gameplay & tools programmer** who tries to make systems that are fun to work with and fun to play with. I studied application development and spent a few years in web development before switching fully to games, and have now graduated from Breda University of Applied Sciences.

EDUCATION

BSc • Creative Media and Game Technologies

Breda University of Applied Sciences | Breda, Netherlands

2022 - 2026

Secondary vocational education Lv.4 • Application Development

ROC Da Vinci | Dordrecht, Netherlands

Thorbecke Lyceum | Rotterdam, Netherlands

2010 - 2015

SKILLS

C++

Unreal Engine 4/5 (C++ & Blueprint)

Git, Perforce, Diversion

Visual Studio, IntelliJ Platform IDEs

Premake

Atlassian Software

Full-stack Web Development

STRONG POINTS

Strong Leadership

Problem Solving

Team Collaboration

Structuring Chaos

Designer-Focused Tooling

Clear Technical Communication

Quality-Focused

LANGUAGES

Dutch - Native

English - Proficient

INTERESTS

Gaming

Cooking

Magic: The Gathering

PROJECT EXPERIENCE

For all my projects, please visit my online portfolio: <https://itschris.dev/>

Vehicle Mechanics | Breda

PROGRAMMER | Year 4 (Graduation)

Researched and implemented real-world vehicle dynamics (suspension, tire grip, and drivetrain behavior) in Unreal Engine for an arcade-style driving system.

Break-a-Bot | Breda

LEAD PROGRAMMER | Year 3

Built a swappable weapon/limb attachment system for the roguelike's player robot and a procedural prop-destruction system using Chaos fracture. Resolved team communication issues, and introduced code review and style-guide practices.

MARISOL | Breda

LEAD PROGRAMMER | Year 2

Led a 23-person team's programming, built a designer-facing puzzle system, and procedural leg animation for the game's enemy.

SNOPUCK | Breda

DE FACTO LEAD PROGRAMMER | Year 1

Built the local multiplayer lobby/team system and a designer-extensible power-up framework with documentation, while informally guiding the team as the only programmer with prior Unreal experience.

WORK EXPERIENCE

Verdant Games | Breda

INTERN GAMES PROGRAMMING | 2025/09 - 2026/02

Sole programmer on unreleased project, building and refactoring core gameplay systems in collaboration with designers and artists, while taking initiative in meetings and designs.

Inventeers | Leiden

FULL STACK WEB DEVELOPER | 2022/01 - 2022/08

Built and integrated new IoT features while troubleshooting reported issues.

SELF-STUDY IN GAME DEVELOPMENT

2021 - 2022

CAK Groep | Dordrecht

BACKEND PHP DEVELOPER

2019/09 - 2021/01

Implemented new features and resolved bugs, with test coverage and documentation.

Ridemi | The Hague

FULL STACK DEVELOPER | 2018/06 - 2018/09

INTERN FULL STACK WEB DEVELOPER | 2018/02 - 2018/06

Developed full-stack features while also mentoring fellow interns.

Jermaine Art | Rotterdam

INTERN FULL STACK WEB DEVELOPER | 2016/09 - 2017/02

Designed, build and maintained Wordpress sites.
